Premier,

Just thought I would drop you a quick thank you note for the sterling effort offered recruiting Al Ahmed. Al has worked out better than expected, his enthusiasm and level of knowledge has impressed greatly here at CIBC.

May I also thank you for your considerable contribution in the recruitment process. I have dealt with numerous agencies while at CIBC and to find an agent that quickly and professionally understands our requirements, and more importantly can react to our requests in a timely manner is very unique.

I look forward to working with you in the future, and may I thank you once more for the professional and tailored service offered during the recruitment process and value you have added to our organisation.

Kind Regards

Premier,

To date the service received from Premier and the specialist consultant I have worked with has always been helpful and professional. Premier's consultants are very approachable and make an effort to understand their client's needs. They have the technical expertise to grasp exactly the technical and personal requirements of a position, plus they clearly place importance in building a relationship and finding the way in which we would like them to work in partnership with us.

To demonstrate this, the assigned consultant managed to fill 2 of our positions within 2 weeks of receiving the specification, and proposed to meet with us shortly afterwards in order to discuss further roles and the relationship going forward.

Overall, I have found Premier Group to be very professional and I firmly believe that they extend the same qualities to their candidates as to their clients. We are happy to have included Premier onto our PSL and will continue to work closely with them into the future.

Premier,

I have been recruiting for sales positions in Kelway (UK) Ltd for 7 years. Over this time I have developed relationships with various Recruitment Consultants who have never quite understood exactly what I am looking for, sending me CV's of candidates with limited experience and sometimes no relevant experience at all. Premier Sales UK took time to closely understand my business and understand the qualities of the most successful salespeople within my sales team. Once they mastered this all the CV's that they had presented to me match my requirements 100%. Premier Sales make my life easier by only presenting me with candidates that they know will fit into my sales team. The work that they carry out behind the scenes to present me the best candidates in the industry is fantastic and I would recommend them to anyone in the industry who is recruiting salespeople.

Premier,

The Premier Group provided us with well targeted CVs, and allowed us to recruit with a minimum of effort. I found the staff I have dealt with to be highly professional, and the service excellent. They have tailored what they do to exactly how we wanted to work, and as a result the relationship has been very productive indeed. I have little hesitation in recommending them as a highly cost-effective solution to recruitment needs.

Premier,

Sibelius Software have used the services of Premier Group for several years now, and have always found them to produce candidates of the highest caliber. As a specialist software producer, we have rather specialist requirements for our personnel, and Premier have consistently gone the extra mile time after time to search out candidates to meet our stringent criteria. We now have a number of excellent members of staff that have been introduced through Premier, and the next time we are recruiting technical staff, we know where we shall go first to find them. I would recommend them very highly as a thoroughly professional, hard-working and tenacious team who are dedicated to tracking down that special candidate that you never thought you'd be able to find!

Premier,

SITA has always had requirements for contract staff and the main problems we had was how to source high caliber short term resources within a short period of time. In addition, although these resources are freelance, they still required somebody they can look up to as an employer to help them with some day-to-day issues. We at SITA found Premier Group were able to fulfill these needs and I would not hesitate in recommending them to any employer looking for a recruitment agency that was genuinely interested in their clients' needs.

Premier,

I have been working with Premier Group for the last 8 months. In this time I have found them to have excellent consultants who have gone out of their way to find me exactly the right candidates for my roles and to understand what it is we require for the business. The Premier team are always friendly and professional and the relationship that has been established is one of the best that I have with any of my suppliers.

Premier always seem to be one step ahead of their competitors and their candidate care is exceptional. It is rare to find an agency that actually cares for its candidates. I have recommended Premier to my colleagues on various occasions for their professionalism as well as their candidate base. They really take the time to understand your business and they have been very successful whilst working with me.
